PROFILE

Dedicated and experienced software developer with over 5+ years of expertise in web development technologies, including HTML, JavaScript, jQuery, React.js, Next.js, TailwindCSS. Seeking a challenging role where I can leverage my extensive knowledge in front-end to contribute to innovative projects, improve user experience, and drive technological advancements within a dynamic and growth-oriented organization.

EXPERIENCE

Front End Developer

Bics Global / Chennai   2019 - PRESENT

Developed Responsive Web Applications: Utilized HTML, CSS, and JavaScript to create responsive and interactive web pages. Employed frameworks like React and Nextjs for building robust single-page applications .

Improved User Interface Designs: Collaborated with designers to implement user-friendly and visually appealing interfaces. Ensured cross-browser compatibility and adherence to web standards.

Implemented Authentication Systems: Developed secure login and registration systems using JWT, OAuth, and third-party authentication services (e.g., Firebase, Auth0).

Version Control and Collaboration: Used Git for version control and collaborated with team members using platforms like GitHub and Bitbucket. Participated in code reviews and followed agile methodologies.

API Integration: Integrated RESTful APIs and GraphQL endpoints to connect front-end interfaces with back-end services, ensuring seamless data flow and dynamic content updates.

Continuous Learning: Stayed updated with the latest trends and advancements in front-end development.
